CONTENTS

Introduction 1

PART ONE

A practitioner's guide for Organization Development 5

Section 1: OD history and theory overview 7

1 What is OD? Its brief history 9

The goals, characteristics and definition of Organization Development 9

A brief history of OD 12

Critical founders who shaped the OD field 14

How the field got its name 16

Values that have informed OD practice 19

The role of the OD practitioner 21

Summary 23

2 Theories and practices of OD: a theory overview 25

The building blocks of our practice 25

The theoretical bases of OD 26

The theoretical bases of OD 26

The relationships between theory and practice 26

Eight core theoretical bases that shape OD practices 29

Methodological/practical implications of the theoretical perspectives 51

Summary 56

Section 2: OD cycle of work 59

3 Theories and practices of OD: the OD cycle and the entry and contracting phase 62

Overview of the OD consultancy cycle – six key components 62

Phase one: entry – initial contact 67

Phase two: contracting 72

Summary 78

- 4 Theories and practices of OD: the diagnostic phase 79**
- What is diagnosis in OD? What are the wider aims for the diagnostic process? 80
 - Summary of the tasks and skills required for the diagnostic process 82
 - Political considerations in managing the diagnostic phase 83
 - An outline of the different kinds of data you may need 86
 - Data collection methods and how to ensure that the data collection process achieves its aims 90
 - Data analysis – how to join different data together 92
 - Data feedback and action planning 95
 - Summary 98
- 5 Theories and practices of OD: the intervention phase 99**
- Definition of intervention and the key criteria for OD intervention 100
 - Design interventions (cross-dimensional design) – review of the three ‘cubes of intervention’ framework 105
 - Levels and types of interventions 111
 - Summary of cross-dimensional checklist based on concepts from the three cubes, levels and types of intervention 116
 - Building an intervention strategy – construction of criteria for effective intervention design 118
 - Summary of the tasks and skills required in an intervention 126
 - Summary 128
- 6 Theories and practices of OD: the evaluation phase 130**
- The three roots of evaluation 131
 - OD evaluation as part of the OD cycle of work 131
 - What is evaluation and what are metrics? What does one measure and how? 134
 - The tasks and skills required for evaluation 149
 - How to build the culture of evaluation as an integral part of OD work 151
 - Summary and quick reference for evaluation 155
- Section 3: OD and change 159**
- 7 Living at the edge of chaos and change 162**
- Preamble 162
 - The dilemma of OD practitioners 163
 - What is the traditional change paradigm? 166
 - What are the implications for our change practices? 170

A word about change vocabulary 171

Summary 173

8 Back-room and front-room change matters 174

Overview 174

Back-room matters – macro level of change work 174

Front-room matters (the people dimension and the engagement issue) 190

Change implementation capabilities 198

What areas do we need to pay attention to during implementation? 200

What are change implementation capabilities? 200

What is the benefit case for having effective change implementation capabilities? 210

Summary 211

9 Can behavioural change be made easy? 213

Overview 213

Three different approaches to looking at culture and behavioural change 214

Four ways that offer alternative insights into how to achieve behavioural change 219

Summary – the practice implications for practitioners 239

Section 4: The Organization Development practitioner 243

10 The Organization Development practitioner 245

The roles and tasks of OD practitioners 245

The concept of self and the ‘use of self as instrument’, and its role in the theory and practice of OD 248

The competence profile of the OD practitioner 256

The development journey that OD practitioners should engage in 261

Summary 264

11 Power and politics in Organization Development 266

What are power and politics? 267

Why power and politics are not favourite subjects for OD practitioners, and what they can do differently to change that perspective 268

How power dynamics show up in organizations and the practical implications for ODPs 272

How to build up a personal power base and power strategies to achieve greater impact – and be an ethical power user 277

What the OD community needs to do to build organization power bases 282
Summary 284

Section 5: Additional thoughts 287

12 What is an organization? What is organization health? 289

What is an organization? 291

The range of definitions and indicators that exist in the literature on organization health 293

McKinsey research on organization health 302

How do you begin to build a practice of keeping an ‘equal eye’ on performance and health? 310

Summary 318

13 How to build up your presence and impact on organization life 319

How to expand your presence and impact on the organization 320

How to build up an internal OD function in the organization 322

Summary 327

PART TWO

HR in relation to OD: practice examples 329

14 HR in relation to OD 331

Why is it important that HR ‘gets’ OD? 332

How well equipped is HR to be change agent? 336

A strategic agenda 339

The COVID-19 pandemic 341

Culture is key 343

Managing the talent stream 345

Model the way 346

How to get the ‘licence to play’ 351

Building credibility 355

Conclusion 358

15 Organization Design 360

What is Organization Design (ODS)? 361

Challenges for the business 362

The changing field of ODS 364

The Star ModelF0E4 366

The Organization Design process 373
 An HR/OD approach to designing organizations 374

16 Transformation and culture change 385

A turbulent backdrop 385
 The challenges of profound change 386
 Planned change philosophies and approaches 390
 HR and transformational change 393
 About culture change 401
 HR's role in changing cultures 406
 Training as an enabler of cultural integration 413
 To stimulate culture change 415
 Conclusion 417

17 Building organizational agility and resilience 418

What is organizational agility? 419
 Why are agility and resilience so elusive? 422
 Unpacking organizational agility and resilience 425
 How can HR help build agility and resilience? 429
 Modelling HR agility 440
 Conclusion 442

18 A culture conducive to innovation and learning 444

Introduction 444
 The innovation imperative 445
 The innovation process 448
 Agile approaches to innovation 451
 A change-able, innovative culture 451
 HR's role in building a culture of innovation and organizational learning 453
 Conclusion 465

19 Building the context for employee engagement 467

What is employee engagement? 468
 Changing psychological contracts 473
 The 'gig economy' 474
 What motivates people to want to do a good job? 476
 How can employers create the context for engagement? 481
 Building trust and involvement 482
 Maintaining engagement in times of change 486
 Conclusion: building a more mutual employment relationship 492

20 Developing effective leadership 494

Defining leadership 495

HR's role in developing leaders 497

Equipping leaders for the task 498

HR exercising stewardship 510

Crafting a leadership development strategy 511

Conclusion 513

Postscript – towards a better tomorrow 514
