Preface

Aims of the Master Guide

The primary aim of this Master Guide is to provide a simplified but comprehensive approach to prepare for HKICPA's Qualification Programme Module C *Business Assurance*, Final Examination and PC Examination.

It is intended for those with little or no knowledge of auditing. Having said that, some knowledge of accounting, financial reporting and Hong Kong Companies Ordinance would be an advantage.

This Master Guide has been designed to serve:

- As reference material to be brought to the examination hall

Highlight of this Master Guide

- Takes account of all the Hong Kong Standards on Auditing up to December 2014
- Provides linkages to Hong Kong Financial Reporting Standards
- Follows a logical sequence through the audit cycle
- Includes mindmaps, flowcharts and diagrams and makes use of tabular presentation to enhance learning process and facilitate efficient referencing during the exam
- Mnemonics are used to help capture key concepts

Final Remarks and Acknowledgement

You need not to be an auditor to pass Module C exam. Conversely, being an auditor does not necessarily guarantee a pass if you are not fully prepared for Module C exam. By saying fully prepared, it means a thorough understanding of the subject matter and the ability to tailor your answers to the questions - a common fault in Module C exam is that students tend to write down everything they know rather than pinpointing to what the questions are really asking for.

I would like to thank my colleague Mike for his encouragement, advice and coordination. A special tribute is paid to my university jecturers Julie, Clive, Mark, Stuart and John for their teaching and inspiration. J also owe a debt of gratitude to my wife Janice and my child Winston for their unlimited love and support.
