Preface	xvii
PART I: BASIC TRANSFER PRICING STANDARDS	1
Chapter 1: Introduction	3
Control	4
Tax Havens	5
Complexities	5
Chapter 2: Arm's Length Principle	7
General Explanation of the Arm's Length Principle	8
Formal Statement as to the Arm's Length Principle	10
Comparability Considerations	11
Rationale behind the Arm's Length Principle	11
Compensation Issues	12
Applying the Arm's Length Principle to Contribution Analysis	13
Oligopolistic Conditions	14
Transactions That Independent Enterprises Would Not Undertake	15
Administrative Burdens of the Arm's Length Principle	15
Maintaining the Arm's Length Principle as the International Consensus	16
Rejection of Alternative Transfer Pricing Approaches	17
Notes	18
Chapter 3: Arm's Length Range	19
Single-Figure Approach to the Arm's Length Range	19
Reliability Requirement	20
Comparability Considerations	20
Consequences of Applying More Than One Transfer Pricing Method	21
Selecting the "Most Appropriate Point" in the Range	22
Extreme Results: Comparability Considerations	23
Notes	24
Chapter 4: Safe Harbor Simplification	27
Safe Harbor Burdens and Benefits	28
Defining "Safe Harbor"	29

x ■ Contents

Scope of the Safe Harbor Provisions	30
How Arbitrary Are the Safe Harbor Provisions?	31
Factors Supporting the Use of Safe Harbors	31
Problems That Safe Harbors Present	33
Multiple Jurisdictions	39
Possibility of Opening Avenues for Tax Planning	40
Statistical Data and a Safe Harbor Example	40
Undertaxation	41
Safe Harbor Principles	41
Equity and Uniformity Issues	41
Recommendations as to the Use of Safe Harbors	42
Safe Harbors as Surrender of the Tax Administration's Discretionary Power	43
Flexible Practices	43
Country-Specific Practices	44
Comprehensive Example	44
Notes	45
Chapter 5: Modifying Safe Harbor Simplification	47
The Study	47
Eleven Specific Transfer Pricing Measures	48
Notes	55
Chapter 6: Global Formulary Apportionment	57
Profit Split Methodologies	58
Global Dealing	58
Attack on Global Formulary Apportionment	58
Impact of the Arm's Length Principle	59
Comparing Global Formulary Apportionment with the Arm's Length Principle	60
Double Taxation	60
Lack of a Common Accounting System	61
Factor Selection	62
Transitional Issues	62
Economic Issues	62
Impact of Exchange Rate Movements	63
Compliance Costs and Data Requirements	63
Valuation Difficulties	64
Separate Entity Approach versus Global Formulary Apportionment	64
Bilateral Tax Treaties	65
Members of the Multinational Group Excluded from Global Formulary Apportionment	65
OECD's Rejection of Non-Arm's Length Methods	66
Safe Harbors	66
Notes	67

PART II: TRANSFER PRICING METHODOLOGIES	69
Chapter 7: Transactional Profit Split Measures	71
Transactional Profit Split Method Concepts	72
Strengths and Weaknesses of the Transactional Profit Split Method	73
Availability of Comparables in Applying the Transactional Profit Split Method	74
Importance of Functional Analysis in Applying Transactional Profit Split Methods	74
Transactional Profit Split Method Weaknesses	75
Applying Transactional Profit Split Methods	76
Guidelines Profit Splitting Approaches	77
Determining the Combined Profits to Be Split	79
Actual Profits versus Projected Profits	80
Different Profit Measures When Applying the Transactional Profit Split	81
How to Split the Combined Profits	82
Reliance on Comparable Uncontrolled Transactions Data	83
Allocation Keys	83
Reliance on Internal Data	86
Conclusions as to Transactional Profit Split Methods	88
Notes	89
Chapter 8: Profit Split Illustrations	91
Three Basic Assumptions	91
Three Residual Profit Split Alternatives	92
Commentary	96
Notes	97
Chapter 9: Residual Profit Split Examples	99
Presumptions and Preconditions	99
Essential Factual Pattern Conflict	100
Functional Activities	100
Selecting Transfer Pricing Approaches	101
Applying the Residual Profit Split Approach	101
Drafters' Disclaimer	104
Contribution Approach	104
Notes	105
Chapter 10: Transactional Net Margin Method	107
Initial TNMM Considerations	107
How the Transactional Net Margin Method Works	108
TNMM Reliability	109
Strengths of the TNMM	110
Weaknesses of the TNMM	111
Applying the Comparability Standard to the TNMM	112
Database Issues: The Audio Player Example	114
Impact on the Arm's Length Range	114

xii ■ Contents

Selecting the TNMM	115
Selecting the Net Profit Indicator	115
Exclusion and Measurability	120
Cases in Which Net Profits Are Weighted to Sales	120
Cases in Which Net Profits Are Weighted to Costs	121
Cases in Which Net Profits Are Weighted to Assets	123
Berry Ratios	124
Other Guidance	126
TNMM Examples	126
How the OECD Views the TNMM	128
Notes	128
Chapter 11: Selecting Profit Indicators	133
Illustration 1	134
Illustration 2	136
Illustration 3	138
Notes	139
Chapter 12: Selecting Transfer Pricing Methods	141
When Can a Business Apply a Multisided Transfer Pricing Method?	142
When Should a Business Not Apply a Multisided Transfer Pricing Method?	144
PART III: COMPARABILITY ANALYSIS	147
Chapter 13: How Comparability Analysis Works	149
Determining When Transactions Are Comparable	149
Factors and Comparability	152
Functional Analysis	155
Economic Circumstances	161
Business Strategies	162
Return on Investment	164
Recognizing the Actual Transactions Undertaken	165
Associated Enterprises and Independent Enterprises: In Contrast	167
Alternatively Structured Transactions	167
Losses	168
Multinational Enterprises	168
Implementing Business Strategies	169
Impact of Governmental Policies	170
Notes	173
Chapter 14: Comparability Techniques	177
General Comparability Guidance	177
Typical Comparability Processes	179
Broad-Based Analysis of the Taxpayer's Circumstances	181
Controlled Transaction and Choice of a Tested Party	181
Comparable Uncontrolled Transactions	188

Selecting or Rejecting Potential Comparables	193
Additive Approach	193
Comparability Adjustments	196
Arm's Length Range	199
Notes	202

Chapter 15: Timing and Comparability **205**

Timing of Origin	206
Timing of Collection	206
Valuation That Is Highly Uncertain	207
Data from Years Following the Year of the Transaction	208
Multiple-Year Data	208
Compliance Tools	210
Notes	210

PART IV: ADMINISTRATIVE APPROACHES **213**

Chapter 16: Transfer Pricing Audits **215**

Transactional Profit Split Method	216
Simultaneous Tax Examinations and Transfer Pricing	216
Tax Arrangements	217
Potential Levels of Cooperation between Tax Administrations	218
Examples	220
Notes	224

Chapter 17: Monitoring the Guidelines **227**

Understanding the Monitoring Process	228
Method Selection	228
Specific Monitoring Processes	229
Working Party Notice Peer Reviews	229
Three Peer Review Levels	230
Peer Review Selection Criteria	231
Difficult Case Paradigms	231
Biennial Members of Tax Examiners	232
Business Community Involvement	233
Business Industry Advisory Committee	233
Business's Role in Contributing to the OECD	235
Peer Reviews and the Business Community	235
Business Community's Updates on Legislation and Practice	236
Role of the U.S. Council for International Business	236
Notes	237

PART V: ADVANCED OECD ANALYSIS **239**

Chapter 18: Documentation Requirements **241**

Introductory Issues and Burden of Proof	241
---	-----

xiv ■ Contents

Guidance on Documentation Rules and Procedures	242
Useful Information for Determining Transfer Pricing	244
Summary of Recommendations on Documentation	245
Notes	245
Chapter 19: Intangible Property	247
Basic OECD Intangible Property Provisions	247
Future Intangible Property Developments	248
Arm's Length Intangible Property Issues	249
OECD Intangible Property Developments	249
Soft Intangibles	250
Highly Uncertain Valuation Issues	250
Steps That an Independent Enterprise Might Undertake to Resolve Uncertainty	251
Tax Administrator's Response	253
Timing Considerations	254
OECD Highly Uncertain Valuation Examples	254
What the OECD Should Do Now	259
Notes	260
Chapter 20: Service Arrangements	263
Overview	263
Scope of Intragroup Arrangements	264
Shareholder Activities and Stewardship Activities	267
Adjusting to the Form of the Arm's Length Consideration	270
"On Call" Services	270
Evaluating "On Call" Services	271
Determining an Arm's Length Charge for the Intragroup Service	272
Including Service Costs in the Transfer of Goods	275
Double-Taxation Risks	276
Examining the Actual Use of the Services	276
Calculating the Arm's Length Consideration	276
Applying Transfer Pricing Methods	277
Functional Analysis	278
Business Strategies: Profits for the Service Provider	278
Applying the Cost-Plus Method for Intragroup Services	279
Cost-Benefit Issues and Safe Harbor	280
Intragroup Service Examples	281
Specialized Services	283
Multinational Service Enterprises	283
Specialized Service Industries	284
Applying the Transactional Profit Split Method to Services	284
Notes	285
Chapter 21: Cost Contribution Arrangements	289
Overview	289
Cost Contribution Arrangement Criteria	291

Mandatory CCA Arm's Length Requirements	296
Applying an Applicable Allocation Key	300
Tax Treatment of Contributions and Balancing Payments	302
Entry, Withdrawal, and Termination of a Cost Contribution Arrangement	306
Recommendations for Monitoring and Structuring Cost Contribution Arrangements	309
Documentation	310
Notes	312
Chapter 22: Business Restructuring	315
Special Risk Considerations	316
Compensation for Undertaking the Restructuring	318
Postrestructuring Remuneration	321
Recognition of the Actual Transactions Undertaken	323
Notes	325
PART VI: PUTTING THE GUIDELINES TO WORK	327
Chapter 23: Malaysia-Singapore Allocation Keys	329
Importance of Allocation Keys	329
When the Transactional Profit Split Method Is the "Most Applicable" Transfer Pricing Method	330
Specialized Services	331
Applying the Transactional Profit Split Method	332
Four Allocation Key Categories	333
Key Functions	333
Selecting Potential Allocation Keys	334
Selecting among Allocation Keys	336
"Strong Correlation" Standard	337
Allocation Keys	337
Transfer Pricing Strategies	342
Notes	343
Chapter 24: China-Taiwan Trade	345
Taiwan and China: A History Lesson	345
Tax Considerations	348
Transactional Profit Split Method Criteria	352
APA Process	355
Notes	356
Chapter 25: Reverse Engineering the Transfer Pricing Process	357
Transactional Profit Split	358
Simultaneous Tax Examinations and Transfer Pricing	358
Tax Arrangements	359
How the Reverse Engineering Transfer Pricing Process Works	367

xvi ■ Contents

Functional Analysis Considerations	369
Transactional Profit Split Method	370
Success Parameters to the Reverse Engineering Process	370
Synergistic Activities	371
Undertaking Multijurisdictional Production Processes	372
Engaging in Extensive R&D Activities	373
Dealing in Unique Intangibles	374
Participating in a Cost Contribution Arrangement	374
Creating or Providing Specialized Services	375
Distributions of Generic Goods or Standardized Goods	376
Contract Manufacturers and Contract Service Activities	377
Planning	377
International LP Gas Companies Face Multinational Tax Claims	377
Multinational Service Enterprises	379
Notes	380

PART VII: CONNECTING TRANSFER PRICING AND PERMANENT ESTABLISHMENT **383**

Chapter 26: Permanent Establishment Parameters **385**

OECD's Permanent Establishment Provisions	386
Overall Tax Considerations	388
OECD Approach to Determine Permanent Establishment	389
Hong Kong Applies the OECD Permanent Establishment Provisions	389
Common Law Permanent Establishment Criteria	391
Declining Businesses	394
"Preparatory to" and "Auxiliary to" Exemptions	395
Will the OECD Approach Prevail?	395
Notes	396

Chapter 27: Focus on Permanent Establishment **397**

Background Considerations	398
Twenty-five Proposed Changes	398
Notes	413

About the Authors **415**

Index **417**
