

Contents

Preface	xvii
About the Editors	xix
SECTION ONE	
Supervisory Risk Management	
CHAPTER 1	
Measuring Systemic Risk: Structural Approaches	3
<i>Raimund M. Kovacevic and Georg Ch. Pflug</i>	
Systemic Risk: Definitions	4
From Structural Models to Systemic Risk	6
Measuring Systemic Risk	10
Systemic Risk and Copula Models	15
Conclusions	20
References	20
CHAPTER 2	
Supervisory Requirements and Expectations for Portfolio-Level Counterparty Credit Risk Measurement and Management	22
<i>Michael Jacobs Jr., PhD, CFA</i>	
Introduction	22
Review of the Literature	25
Supervisory Requirements for CCR	26
Conceptual Issues in CCR: Risk versus Uncertainty	41
Conclusions	44
References	44

**CHAPTER 3****Nonperforming Loans in the Bank Production Technology 46***Hirofumi Fukuyama and William L. Weber*

Introduction	46
Selective Literature Review	47
Method	51
Empirical Application	57
Summary and Conclusion	65
Appendix 3.1 Bank Names and Type	66
References	67

SECTION TWO**Risk Models and Measures****CHAPTER 4****A Practical Guide to Regime Switching in Financial Economics 73***Iain Glacher, Mark Freeman, David Hillier, Maxim Kemp and Qi Zhang*

A Brief Look at Markov Regime Switching in Academic Economics and Finance	74
Regime Switching and Interest Rate Processes	75
Regime Switching and Exchange Rates	76
Regime Switching, Stock Returns, and Asset Allocation	77
Single-Asset Markov Models	79
Two-State Estimation	82
Three-State Estimation	84
Markov Models for Multiple Assets	85
Practical Application of Regime Switching Models for Investment Purposes	87
Intuitive Appeal of Such Models	87
Implementation Challenges	89
Selecting the "Right" Model Structure	89
Calibrating the Selected Model Type to Suitable Data	90
Drawing the Right Conclusions from the Model	93
References	95

CHAPTER 5**Output Analysis and Stress Testing for Risk Constrained Portfolios 98***Jitka Dupačová and Miloš Kopa*

Introduction	98
Worst-Case Analysis	107

<i>Contents</i>	xiii
Stress Testing via Contamination	110
Conclusions and New Problems	122
References	122
CHAPTER 6	
Risk Measures and Management in the Energy Sector	126
<i>Marida Bertocchi, Rosella Giacometti and Maria Teresa Vespucci</i>	
Introduction	126
Uncertainty Characterization via Scenarios	128
Measures of Risks	132
Case Studies	137
Summary	147
References	147
SECTION THREE	
Portfolio Management	
CHAPTER 7	
Portfolio Optimization: Theory and Practice	155
<i>William T. Ziemba</i>	
Static Portfolio Theory	155
Importance of Means	163
Stochastic Programming Approach to Asset Liability Management	167
Siemens InneALM Pension Fund Model	182
Dynamic Portfolio Theory and Practice: The Kelly Capital Growth Approach	194
Transactions Costs	199
Some Great Investors	201
Appendix 7.1: Estimating Utility Functions and Risk Aversion	206
References	208
CHAPTER 8	
Portfolio Optimization and Transaction Costs	212
<i>Renata Mansini, Włodzimierz Ogryczak and M. Grazia Speranza</i>	
Introduction	212
Literature Review on Transaction Costs	215
An LP Computable Risk Measure: The Semi-MAD	221

xiv	Contents
Modeling Transaction Costs	223
Non-Unique Minimum Risk Portfolio	232
Experimental Analysis	234
Conclusions	237
Appendix	238
References	239
CHAPTER 9	
Statistical Properties and Tests of Efficient Frontier Portfolios	242
<i>C J Adcock</i>	
Introduction	242
Notation and Setup	245
Distribution of Portfolio Weights	247
Empirical Study	255
Discussion and Concluding Remarks	267
References	268
SECTION FOUR	
Credit Risk Modelling	
CHAPTER 10	
Stress Testing for Portfolio Credit Risk: Supervisory Expectations and Practices	273
<i>Michael Jacobs Jr.</i>	
Introduction and Motivation	273
Conceptual Issues in Stress Testing: Risk versus Uncertainty	276
The Function of Stress Testing	277
Supervisory Requirements and Expectations	280
Empirical Methodology: A Simple ST Example	281
Conclusion and Future Directions	291
References	293
CHAPTER 11	
A Critique of Credit Risk Models with Evidence from Mid-Cap Firms	296
<i>David E. Allen, Robert J. Powell and Abhay K. Singh</i>	
Introduction	296
Summary of Credit Model Methodologies	297
Our Empirical Methodology	302

<i>Contents</i>	XV
Critique	303
Conclusions	310
References	310
CHAPTER 12	
Predicting Credit Ratings Using a Robust Multicriteria Approach	312
<i>Constantin Zopounidis</i>	
Introduction	312
Credit Scoring and Rating	315
Multicriteria Methodology	319
Empirical Analysis	325
Conclusions and Future Perspectives	330
References	331
SECTION FIVE	
Financial Markets	
CHAPTER 13	
Parameter Analysis of the VPIN (Volume Synchronized Probability of Informed Trading) Metric	337
<i>Jung Heon Song, Kesheng Wu and Horst D. Simon</i>	
Introduction	337
Definition of VPIN	341
Computational Cost	346
Optimization of FPR	348
Uncertainty Quantification (UQ)	353
Conclusion	360
References	362
CHAPTER 14	
Covariance Specification Tests for Multivariate GARCH Models	364
<i>Gregory Koutmos</i>	
Introduction	364
Covariance Specification Tests	365
Application of Covariance Specification Tests	367
Empirical Findings and Discussion	368
Conclusion	370
References	370

CHAPTER 15	
Accounting Information in the Prediction of Securities Class Actions	372
<i>Vassiliki Balla</i>	
Introduction	372
Literature Review	375
Methodology	376
Data	378
Results	387
Conclusions	394
References	395
About the Contributors	399
Glossary	413
Index	421
