Introduction	ix
Chapter 1. Extreme Environment and Management Situations	1
1.1. The extreme environment: what is it about?	1
1.2. Various management situations in the extreme environment	2
1.2.1. Routine activities, unexpected events and crises: a typology of management situations in the extreme environment	3
1.2.2. Routine, crisis and unexpected situations: a characterization	4
1.3. Coordination in the extreme environment: shifting from one management situation to another	12
Chapter 2. Team Coordination: What the Theory of Organizations has to Say	15
2.1. Classical theories of coordination	15
2.1.1. Predetermined coordination	16
2.1.2. The limited contribution of classical theories to the analysis of team coordination in the extreme environment	19
2.2. “Practice-based” coordination: putting back actors at the center of coordination	22
2.2.1. The “practice” turn in management science	22
2.2.2. What contribution does the practical perspective bring to the study of team coordination?	25

Chapter 3. Coordination Practices in the Extreme Environment: Communication, Reflexivity and Socialization	29
3.1. Communication practices	29
3.1.1. Shared languages: code words, diagrams and body expressions	30
3.1.2. Technological uses: improving communication through information sources and flow	37
3.1.3. Communication practices: a synthesis.	44
3.2. Reflexive practices	45
3.2.1. Briefing–debriefing in the French Air Forces squadrons	45
3.2.2. Reflexive practices in debriefing sessions	46
3.2.3. Reflexive practices: a synthesis	51
3.3. Socialization practices	52
3.3.1. The squadron bar: where common knowledge is built	52
3.3.2. Cohesive activities that convey team values and build mutual trust.	54
3.3.3. Socialization practices: a synthesis	56
3.4. Coordination in the extreme environment: articulation of communication, reflexive and socialization practices	56
Chapter 4. Can Coordination in the Extreme Environment be Learned? A Managerial Approach	61
4.1. Necessary individual and collective skills for coordination in an extreme environment	62
4.1.1. From theoretical to practical knowledge: practices, knowledge and skills	62
4.1.2. Skills needed for coordination in extreme environments: the example of tactical airlifter crews.	64
4.2. Setting up a process of “immediate” feedback: the case of the Air Force’s Aerobatic Team	73
4.2.1. “Immediate” feedback processes within the Air Force’s Aerobatic Team.	74
4.2.2. “Immediate” feedback: a method of collective skills and intelligence acquisition	81
4.3. Deploying decision support systems: the example of LINK 16 in air forces	83
4.3.1. Creativity and network-centric decision support system	84

4.3.2. LINK 16's creative uses, developed by the Rafale fighter planes' crews	86
4.3.3. Network-centric decision support systems in support of crews' creativity.	93
4.4. Encouraging the emergence of professional communities: the case of Air Force Knowledge Now.	95
4.4.1. Professional communities in a military environment: between hierarchical communities and community of practice	96
4.4.2. The Air Force Knowledge Now online platform	97
4.4.3. Beyond team frontiers: professional communities favoring experience sharing and organizational culture.	100
4.5. Summary: coordination in extreme environments and managerial actions.	101
Conclusion	103
Bibliography	105
Index	121
