About the Author	x
Foreword	xi
Preface	xiii
Acknowledgements	xv
List of Abbreviations	xvi
1 Introduction	1
1.1 General background and research problem	1
1.2 Scope of the book, limitations and literature review	4
1.2.1 Scope of the book	4
1.2.2 Limitations	4
1.2.3 Literature review	5
1.3 Sources used	6
1.4 Structure of the book	9
1.5 Aims and contribution of the book	10
2 Multi-Party Arbitration in General	11
2.1 Terminology notes	11
2.1.1 Definition of multi-party arbitration	11
2.1.2 Multi-party and multi-contract arbitration: divergent or similar concepts?	12
2.1.3 Group of contracts doctrine	14
2.2 Legal techniques introducing multi-party arbitration	15
2.2.1 Single request for arbitration	16
2.2.2 Joinder	16
2.2.3 Intervention	16
2.2.4 Consolidation	17
2.3 Advantages of multi-party arbitration	18
2.3.1 Avoids risk of inconsistent findings	18
2.3.2 Less time and fewer costs	19
2.3.3 Fewer factual errors	20
2.4 Obstacles to multi-party arbitration	21
2.4.1 Consensual nature of arbitration	21
2.4.2 Arbitration as a two-party setup	23
2.4.3 Arbitration as a confidential process	24

2.4.4	Setting aside proceedings and non-recognition and / or non-enforcement of arbitral awards	26
2.4.5	Practical difficulties	30
3	The Need for Multi-Party Arbitration in the Construction Sector	31
3.1	Specifics of construction disputes and construction arbitration	31
3.2	Introduction to international standard form construction agreements	33
3.2.1	FIDIC Conditions of Contract	33
3.2.2	NEC contracts	36
3.2.3	ICC contracts	37
3.2.4	ENAA model forms	38
3.2.5	IChemE contracts	39
3.2.6	PPC International and SPC International	39
3.3	Contractual structures in construction projects	40
3.3.1	'Build-only' projects	40
3.3.2	'Design-build' or 'turnkey' projects	41
3.3.3	Construction management	43
3.3.4	Management contracting	44
3.3.5	'Design-build-operate' ('DBO') model	45
3.3.6	Partnering and alliancing	46
3.4	Parties' interests in multi-party arbitration	46
3.4.1	Employer	46
3.4.2	Contractor	51
3.4.3	Subcontractor	52
3.4.4	Designer	53
3.4.5	Engineer	54
3.4.6	Suppliers	56
3.4.7	Technical consultants	56
3.4.8	Guarantors	56
3.4.9	Concluding remarks	58
4	Multi-Party Arbitration Solutions under Arbitration Rules	60
4.1	ICC Rules	61
4.1.1	Multi-contract claims and prima facie assessment	62
4.1.2	Joinder	67
4.1.3	Consolidation	69
4.2	CEPANI Rules	71
4.2.1	Multiple parties and multi-contract claims	71
4.2.2	Joinder and intervention	73
4.2.3	Consolidation	75
4.3	LCIA Rules	77
4.4	UNCITRAL Rules	80
4.5	Swiss Rules	84
4.5.1	Prima facie test	84
4.5.2	Consolidation	84
4.5.3	Joinder and intervention	88

4.6	Rules adopted by the American Arbitration Association ('AAA')	90
4.6.1	Construction Industry Arbitration Rules ('CIAR')	90
4.6.2	ICDR Rules	92
4.7	Vienna Rules	94
4.7.1	Joinder	95
4.7.2	Consolidation	98
4.8	DIS Arbitration Rules	99
4.9	SCC Rules	100
4.10	DIA Rules	101
4.11	Arbitration rules in Asia	102
4.11.1	CIETAC Rules	102
4.11.2	SIAC Rules	106
4.11.3	HKIAC Rules	109
4.11.4	JCAA Rules	114
4.12	Concluding remarks regarding arbitration rules	115
5	Multi-Party Arbitration Solutions under Arbitration Laws	121
5.1	UNCITRAL Model Law	122
5.2	The United Kingdom	124
5.3	The Netherlands	129
5.4	Belgium	131
5.5	New Zealand	132
5.6	Hong Kong	133
5.7	Canada	137
5.8	Australia	138
5.9	Other countries	139
5.10	Multi-party arbitration in the United States	140
5.10.1	Legal framework	140
5.10.2	United States' case law on multi-party arbitration	146
5.11	Should arbitration laws deal with multi-party arbitration?	158
5.12	Concluding remarks regarding arbitration laws	164
6	Contractual Solutions to Multi-Party Arbitration	167
6.1	FIDIC Conditions of Contract	169
6.2	Blue Form	175
6.2.1	Clause 18(2) of the 1984 Blue Form	175
6.2.2	Use of the Blue Form in conjunction with the FIDIC Conditions of Contract	183
6.2.3	Commentary on clause 18(2)	189
6.2.4	Clause 18(8) of the 1991 Blue Form	201
6.2.5	Clause 18(10) of the 1998 Blue Form	205
6.2.6	Clause 18C(4) of the 2008 Blue Form	206
6.3	JCT Contracts	208
6.3.1	JCT 80 approach to multi-party arbitration	209
6.3.2	Commentary on the JCT 80 approach	219
6.3.3	New JCT approach	222

6.4	ACA standard forms	223
6.5	NEC3	226
6.5.1	Main contract provisions	227
6.5.2	Subcontract provisions	229
6.5.3	Do NEC3 provisions create a self-contained mechanism for joint adjudication?	230
6.5.4	Compatibility between the joint adjudication provisions and the dispute notification requirements	232
6.6	IChemE contracts	234
6.7	ICC contracts	237
6.8	PPC and SPC International	238
6.9	ENAA Model forms	240
6.10	AIA standard forms	242
6.11	ConsensusDocs	247
6.12	AB 92 and ABT 93	250
6.13	Concluding remarks regarding contractual approaches	252
7	Proposed Solutions	255
7.1	Jurisdictional approach	256
7.2	Abstract consensual approach	262
7.3	Proposed contractual solutions	264
7.3.1	IBA guidelines for Drafting International Arbitration Clauses	267
7.3.2	AAA Guide to Drafting Alternative Dispute Resolution Clauses for Construction Contracts	271
7.3.3	Drafting Multi-Party Arbitration Clauses	273
7.3.4	Sample multi-party arbitration clause	303
7.4	Institutional approach	313
7.4.1	How to create a workable multi-party arbitration mechanism under arbitration rules?	315
7.4.2	Compatibility of arbitration agreements	319
7.4.3	Other circumstances	322
8	Conclusion	325
Table 1	Summary of Multi-Party Arbitration Provisions under the Reviewed Arbitration Rules	328
Table 2	Summary of Multi-Party Arbitration Provisions under Arbitration Laws	333
Appendix 1	Second Alternative Clause of Clause 20 of the FIDIC Subcontract	337
Appendix 2	Multi-Party Arbitration Provisions under the Blue Form	351

Appendix 3	Multi-Party Arbitration Clauses under the ENAA Model Form – International Contract for Process Plant Construction, 2010 and Related Subcontracts	355
