<b>List of Cases</b>	<b>xiii</b>
<b>About the Author</b>	<b>xv</b>
<b>Preface</b>	<b>xvii</b>
<b>Abbreviations</b>	<b>xxi</b>
<b>Analytics Software Used</b>	<b>xxv</b>
<b>Introduction</b>	<b>1</b>
Temptation in an Occupation	2
Fraudulent Checks Written by the CFO	4
Fraudulent Purchases Made by a Purchasing Manager	7
Donna was a Gamblin' Wreck at Georgia Tech	9
Forensic Analytics	11
An Overview of Tableau	13
The Risk Assessment Standards	19
Discussion	21
<b>Chapter 1: Using Microsoft Excel for Forensic Analytics</b>	<b>23</b>
The Fraud Types Relevant to Forensic Analytics	23
The Main Steps in a Forensic Analytics Application	25
The Final Report	27
An Overview of Excel	28
Importing Data into Excel	29
Some Useful Excel Formatting Features	30
Protecting Excel Spreadsheets	32
The Valuable "IF" Function	33
The PIVOTTABLE Routine	36
The Valuable VLOOKUP Function	38
Using Excel Results in Word Files	40
Excel Warnings and Indicators	42
Excel Dashboards	43
Dashboards in Practice	46
Summary	47

<b>Chapter 2: The Initial High-Level Overview Tests</b>	<b>50</b>
The Data Profile	51
The Histogram	56
The Periodic Graph	58
Descriptive Statistics	60
Preparing the Data Profile Using Excel	62
Preparing the Data Profile Using Access	64
Preparing the Histogram in Excel and Access	68
Preparing the Histogram in IDEA and Tableau	72
Preparing the Periodic Graph in Excel and Access	74
Summary	76
<b>Chapter 3: Benford's Law: The Basic Tests</b>	<b>79</b>
An Overview of Benford's Law	80
Some Early Discussions of Benford's Law	83
Selected Articles from the Eighties	85
Selected Articles from the Nineties	88
Scenarios Under Which Data Should Conform to Benford	90
The Two Scenarios Under Which Accounting Data Sets Should Conform to Benford	93
Other Considerations for the Conformity of Accounting Data	94
Accounting Data Examples	95
Preparing the Benford Graph Using Excel	98
Preparing the Benford Graph Using Access	99
Summary	101
<b>Chapter 4: Benford's Law: Advanced Topics</b>	<b>103</b>
Conformity and the Likelihood of Material Errors	103
The First Digits Versus the First-Two Digits	107
Measuring Conformity Using the Z-Statistic	109
The Chi-Square and the Kolmogorov-Smirnoff Tests of Conformity	111
The Mean Absolute Deviation (MAD) Test	112
The Effect of Data Set Size of Conformity to Benford	114
Using Benford's Law in a Forensic Accounting Setting	116
Using Benford's Law for Journal Entries in an External Audit	119
Using Benford for Subsidiary Ledger Balances in an External Audit	123
Preparing the Benford Graph in Excel	125
Summary	126
<b>Chapter 5: Benford's Law: Completing The Cycle</b>	<b>127</b>
The Number Duplication Test	127
The Number Duplications in Accounting Textbooks	132
The Electric Utility Company Fraud Case	134
The Petty Cash Fraud Scheme	136
The Last-Two Digits Test	139

The Fraudulent Credit Card Sales Scheme	141
The Missing Cash Sales Case	142
Running the Number Duplication Test in Excel	144
Running the Number Duplication Test in Access	146
Running the Last-Two Digits Test in Excel	148
Running the Last-Two Digits Test in Access	149
Running the Number Duplication Test in R	151
Summary	153
<b>Chapter 6: Identifying Anomalous Outliers: Part 1</b>	<b>154</b>
The Summation Test	155
The Fraud That Was Red Flagged by Two Qualitative Outliers	158
The Largest Subsets Test	161
The Largest Subset Growth Test	165
The School District Transportation Fraud	168
The SkyBonus Fraud Scheme	170
Running the Summation Test in Excel	170
Running the Summation Test in Access	171
Running the Largest Subsets Test in Excel	172
Running the Largest Subsets Test in Access	173
Running the Largest Growth Test in Excel	174
Running the Largest Growth Test in Access	176
Running the Largest Subsets Test in R	179
Summary	180
<b>Chapter 7: Identifying Anomalous Outliers: Part 2</b>	<b>182</b>
Examples of Relative Size Factor Test Findings	184
The Scheme That Used a Vault That Was Over Capacity	186
The Scheme That Added Sold Cars to the Car Inventory Account	189
The Vice Chairman of the Board Who Stole 0.5 Percent of His Salary	193
Running the RSF Test in Excel	194
Running the RSF Test in Access	199
Running the RSF Test in SAS	208
Summary	212
<b>Chapter 8: Identifying Abnormal Duplications</b>	<b>214</b>
The Same-Same-Same Test	215
Duplicate Payments and Various Types of Fraud	217
The Same-Same-Different (Near-Duplicates) Test	220
The Near-Duplicates Fraud Scheme: Introduction	221
The Near-Duplicates Fraud: The Act	222
The Near-Duplicates Fraud: Getting the Legal Process Started	224
The Near-Duplicates Fraud: Two Sentencing Hearings	228
The Near-Duplicates Fraud: Epilogue	230
The Subset Number Duplication Test	231
Running the Same-Same-Same Test in Excel	233

Running the Same-Same-Different Test in Excel	235
Running the Subset Number Frequency Test in Excel	237
Running the Same-Same-Same Test in Access	239
Running the Same-Same-Different Test in Access	240
Running the Subset Number Frequency Test in Access	242
Summary	245
<b>Chapter 9: Comparing Current Period and Prior Period Data: Part 1</b>	<b>247</b>
A Review of Descriptive Statistics	249
An Analysis of the Purchasing Card Data	250
My Law: An Analysis of Payroll Data	255
An Analysis of Machine Learning Data	257
An Analysis of Grocery Store Sales	261
The Scheme That Used Bank Transfers to a Secret Bank Account	263
Running the Descriptive Statistics Tests in Excel	268
Running the Descriptive Statistics Tests in Minitab	269
Running the Descriptive Statistics Tests in SAS	270
Summary and Discussion	272
<b>Chapter 10: Comparing Current Period and Prior Period Data: Part 2</b>	<b>274</b>
Vectors and Measures of Change	275
An Analysis of the Purchasing Card Data	280
Taxpayer Identity Theft Refund Fraud	282
The Tax Return That Omitted a Million Dollar Prize	284
The Tax Returns for 2000 and 2001	285
The Indictment for Tax Evasion	291
The Tax Evasion Trial	292
The Verdict and Sentencing	298
An Analysis of Joe Biden's Tax Returns	299
Running the VVS Test in SAS	303
Summary and Discussion	304
<b>Chapter 11: Identifying Anomalies In Time-Series Data</b>	<b>306</b>
An Analysis of the Purchasing Card Data	307
Using IDEA for Time-Series Analysis	311
The Fraud Scheme That Withdrew Funds from Customer Accounts	312
Employee Data Access After Termination	317
A Time-Series Analysis of Grocery Store Sales	321
Using Correlation to Detect Fraud and Errors	322
Using the Angle $\theta$ on Trial Balance Data	324
Using the VVS on Customer Rebates	327
Showing the VVS Results in a Dashboard	332
Running Time-Series Analysis in SAS	334
Summary and Discussion	336

<b>Chapter 12: Scoring Forensic Units for Fraud Risk</b>	<b>338</b>
An Overview of Risk Scoring	339
The Audit Selection Method of the IRS	340
The Fraudulent Vendor with a Post Office Box in the Head Office	344
Risk Scoring to Detect Vendor Fraud	348
Risk Scoring to Detect Errors in Sales Reports	354
The Predictors Used in the Sales Report Scoring Model	356
The Results of the Sales Report Scoring Model	364
Summary and Discussion	365
<b>Chapter 13: Case Study: An Employee's Fraudulent Tax Refunds</b>	<b>367</b>
Background Information	368
The Nicest Person in the Office	369
The Early Years of Tax Refund Fraud Scheme	372
The Later Years of Tax Refund Fraud Scheme	375
An Analysis of the Fraudulent Refund Amounts	376
The End Was Nigh	383
The Letter of the Law	386
Sentencing	391
Mary Ayers-Zander	392
Epilogue	393
Appendix 13A: The Fraudulent Refunds	394
<b>Chapter 14: Case Study: A Supplier's Fraudulent Shipping Claims</b>	<b>401</b>
Background Information	401
The Fraudulent Shipping Charges Scheme	403
An Analysis of the Shipping Charges	405
Charlene's Lifestyle	408
The Scheme Is Discovered	409
The Corley Plea	412
Charlene's Appeal for a Reduced Sentence	415
The Government's Response to Charlene's Memorandum	417
The Sentencing Hearing	417
The Sentence	419
Motion to Delay the Prison Term	420
Conclusions	423
<b>Chapter 15: Detecting Financial Statement Fraud</b>	<b>425</b>
An Overview of Financial Statement Fraud	426
Biases in Financial Statement Numbers	427
Enron's Financial Statements	430
Enron's Chief Financial Officer	432
HealthSouth's Financial Statements	433

WorldCom's Financial Statements	436
WorldCom's Rounded Numbers	440
Using Benford's Law to Detect Financial Statement Misconduct	442
Beneish's M-Score	446
Detection and Investigation Steps	447
Detecting Manipulations in Monthly Subsidiary Reports	449
Summary	454
<b>Chapter 16: Using Microsoft Access and R For Analytics</b>	<b>455</b>
An Introduction to Access	456
The Architecture of Access	457
A Review of Access Tables	459
Importing Data into Access	461
A Review of Access Queries	462
Converting Excel Data into a Usable Access Format	465
Using the Access Documenter	466
Database Limit of 2 GB	468
Reports	469
Miscellaneous Access Notes	471
An Introduction to R	472
Installing R and R Studio	472
The Advantages of Using R	474
R Markdown	475
Running Arithmetic Code in R	475
Calculating the WVS in R	477
Summary	479
Appendix 16A: A Discussion of the Basic Commands	480
<b>Chapter 17: Concluding Notes on Fraud Prevention and Detection</b>	<b>482</b>
The Annual Cost of Employee Fraud	483
The Legal Process	484
"I'm a Lawyer, Trust [Account] Me"	485
The Rights of the Defendant	487
Possible Defenses Against an Embezzlement Charge	490
The Economics of Crime Model	492
Internal Controls	493
Fraud Risk Assessments	495
Detective Controls	496
Crime Insurance	498
Fraud Detection Methods	500
Other Fraud Prevention Methods	501
Final Words	504
<b>Bibliography</b>	<b>507</b>
<b>Index</b>	<b>515</b>
