INTRODUCTION	1
About This Book	1
Foolish Assumptions	2
Icons Used in This Book	3
Beyond the Book	4
Where to Go from Here	4
PART 1: OPENING THE BOOKS ON ACCOUNTING	5
CHAPTER 1: Accounting in Today's New Economy	7
Checking Your Preconceptions about Accounting	8
Thinking about where assets come from	9
Asking about profit	9
Sorting out stereotypes of accountants	10
Providing Vital Financial Information	11
Recognizing users of accounting information	12
Using accounting in your personal financial life	13
Seeing accounting at work	14
Accounting's Two Primary Roles	15
Taking a Peek behind the Scenes	16
Focusing on Transactions	19
Separating basic types of transactions	20
Knowing who's on the other side of transactions	21
Recording events	21
Taking the Financial Pulse of a Business	22
Meeting the balance sheet (statement of financial condition)	23
Reporting profit and loss	25
Reporting cash flows and changes in owners' equity	26
Remembering management's role	26
Accounting as a Form of Art	27
CHAPTER 2: Introducing Financial Statements	29
Setting the Stage for Financial Statements	30
Offering a few preliminary comments about financial statements	31
Looking at other aspects of reporting financial statements	32
The Income Statement	33
Presenting the components of the income statement	33
Income statement pointers	35
The Balance Sheet	36
Presenting the components of the balance sheet	36
Balance sheet pointers	38
The Statement of Cash Flows	40
Presenting the components of the statement of cash flows	40
Statement of cash flows pointers	43
A Note about the Statement of Changes in Shareowners' Equity	44
Gleaning Important Information from Financial Statements	44
How's profit performance?	44
Is there enough cash?	45

Can you trust financial statement numbers?	46
Why no (or limited) cash distribution from profit?	47
Complying with Accounting and Financial Reporting Standards	48
Looking at who makes the standards.	49
Knowing about GAAP	50
Divorcing public and private companies	51
Following the rules and bending the rules.	52
CHAPTER 3: Safeguarding Company Assets	53
Separating the Duties of Bookkeepers and Accountants	54
Pedaling through the Bookkeeping Cycle	56
Getting to the end of the period	56
Finishing up for the period	58
Managing Accounting Systems	60
Categorize financial information: The chart of accounts	60
Standardize source documents and data-entry procedures for recording activities	62
Hire competent personnel	63
Get involved in end-of-period procedures	65
Leave good audit trails	66
Keep alert for unusual events and developments	66
Design truly useful reports for managers	67
Enforcing Strong Internal Controls	68
Double-Entry Accounting	70
Juggling the Books to Conceal Embezzlement and Fraud	73
CHAPTER 4: Accounting in the Digital Age	75
Noting a Few Foundational Accounting Concepts Related to Technology	76
Using Accounting Software in the Cloud and on the Ground	78
Controlling and Protecting Money Flows in the Electronic Age	80
Processing payroll	81
Controlling bank accounts	82
Surveying bank forms of electronic payments	82
Checking out non-bank forms of electronic payments	83
Using enhanced accounting controls	84
Managing the Accounting Function in the On-Demand World	86
Source documentation	86
Data rooms	86
Financial reporting	87
Flash reports and KPIs	87
Accounting and financial analysis tools	88
CHAPTER 5: Recognizing the Legal and Accounting Entity	89
Being Aware of the Legal Roots of Business Entities	90
Sole proprietorship	91
Partnerships	91
S corporations	92
Limited liability companies (LLCs)	93
C corporations	94
Going It Alone: Sole Proprietorships	95
Differentiating Partnerships and Limited Liability Companies	96
Looking at important features	96

Understanding profit allocation	97
Incorporating a Business	99
Issuing stock shares.	100
Distinguishing different classes of stock shares	101
Determining the market value of stock shares	103
Watching out for dilution of share value	104
Recognizing conflicts between stockholders and managers.	105
PART 2: EXPLORING FINANCIAL STATEMENTS	109
CHAPTER 6: Reporting Profit or Loss in the Income Statement	111
Presenting Typical Income Statements	112
Looking at businesses that sell products	113
Looking at businesses that sell services.	115
Looking at investment businesses	117
Taking Care of Housekeeping Details.	118
Being an Active Reader	121
Deconstructing Profit	122
Revenue and expense effects on assets and liabilities	123
Comparing three scenarios of profit.	124
Folding profit into retained earnings	126
Pinpointing the Assets and Liabilities Used to Record Revenue and Expenses.	127
Making sales: Accounts receivable and deferred revenue	127
Selling products: Inventory.	128
Prepaying operating costs: Prepaid expenses.	129
Understanding fixed assets: Depreciation expense.	129
Figuring unpaid expenses: Accounts payable, accrued expenses payable, and income tax payable	130
Reporting Unusual Gains and Losses.	132
Watching for Misconceptions and Misleading Reports	134
CHAPTER 7: Reporting Financial Condition in the Balance Sheet	137
Expanding the Accounting Equation.	138
Presenting a Proper Balance Sheet	139
Doing an initial reading of the balance sheet	140
Kicking balance sheets out into the real world	143
Judging Liquidity and Solvency	144
Current assets and liabilities	145
Current and quick ratios.	145
Understanding That Transactions Drive the Balance Sheet	146
Sizing Up Assets and Liabilities	149
Sales revenue and accounts receivable	150
Cost of goods sold expense and inventory	151
Fixed assets and depreciation expense	152
Operating expenses and their balance sheet accounts.	153
Intangible assets and amortization expense.	153
Debt and interest expense.	155
Income tax expense and income tax payable.	156
Net income and cash dividends (if any)	156
Financing a Business: Sources of Cash and Capital	157
Recognizing the Hodgepodge of Values Reported in a Balance Sheet	158

CHAPTER 8: Reporting Cash Sources and Uses in the Statement of Cash Flows	161
Meeting the Statement of Cash Flows	162
Presenting the direct method	163
Opting for the indirect method	165
Explaining the Variance between Cash Flow and Net Income	167
Accounts receivable change	168
Inventory change	169
Prepaid expenses change	170
Depreciation: Real but noncash expense	170
Changes in operating liabilities	172
Putting the cash flow pieces together	173
Sailing through the Rest of the Statement of Cash Flows	174
Understanding investing activities	174
Looking at financing activities	175
Reading actively	177
Pinning Down “Free Cash Flow”	178
Limitations of the Statement of Cash Flows	180
CHAPTER 9: Financial Accounting Issues	183
Reporting Changes in Owners’ Equity	185
Recognizing Reasons for Accounting Differences	186
Looking at a More Conservative Version of the Company’s Income Statement	188
Presenting an alternative income statement	188
Spotting significant differences	190
Explaining Differences	190
Accounts receivable and sales revenue	191
Inventory and cost of goods sold expense	192
Fixed assets and depreciation expense	193
Accrued expenses payable, income tax payable, and expenses	194
Wrapping things up	195
Calculating Cost of Goods Sold Expense and Inventory Cost	195
FIFO (first-in, first-out)	196
LIFO (last-in, first-out)	197
Recording Depreciation Expense	200
Scanning the Revenue and Expense Radar Screen	202
Using the Statement of Cash Flows as an Audit/Sanity Test	205

PART 3: UNDERSTANDING FINANCIAL REPORTS, FINANCIAL STATEMENTS, AND FINANCIAL INFORMATION 207

CHAPTER 10: Producing Financial Reports	209
Quickly Reviewing the Theory of Financial Reporting	210
Starting with the financial statements	210
Keeping in mind the reasons for financial reports	211
Recognizing Top Management’s Role	212
Keeping Current with Financial Accounting and Reporting Standards	214
Making Sure Disclosure Is Adequate	215
Footnotes: Nettlesome but needed	216
Other disclosures in financial reports	218

Putting a Spin on the Numbers (Short of Cooking the Books)	220
Window dressing: Pumping up the ending cash balance and cash flow.	221
Smoothing the rough edges off year-to-year profit fluctuations	223
Comparing Public and Private Companies	226
Reports from publicly owned companies	226
Reports from private businesses.	227
Dealing with Information Overload	228
Browsing based on your interests.	229
Recognizing condensed versions	229
Using other sources of business information	230
CHAPTER 11: Deciphering a Financial Report	231
Knowing the Rules of the Game	232
Making Investment Choices.	233
Managing investments alone or using a third party.	234
Finding and understanding information sources	235
Contrasting Reading Financial Reports of Private Versus Public Businesses.	236
Explaining the Role of MDORs and MD&As.	237
Frolicking through the Footnotes	238
Checking Out the Auditor's Report	240
Why audits?	241
What's in an auditor's report?	241
Discovering fraud, or not	243
CHAPTER 12: Analyzing Financial Information with Ratios	245
Understanding the Importance of Using Ratios to Digest Financial Statements.	246
Improving Your Knowledge of Financial Language and Lingo	246
Starting with Sample Company Financial Statements	248
Benchmark Financial Ratios: Financial Strength and Solvency.	252
Current ratio	254
Net working capital	254
Acid test ratio (aka quick ratio)	255
Debt-to-equity ratio	256
Debt-to-tangible net equity	257
Benchmark Financial Ratios: Financial Performance	258
Return on sales (ROS)	258
Return on equity (ROE)	260
Return on assets (ROA)	261
Earnings per share (EPS), basic and fully diluted	261
Price/earnings (P/E) ratio	263
Debt service coverage ratio	264
Making Time for Additional Ratios (If Needed)	265
CHAPTER 13: Generating Internal Financial Information for Management Use	267
Building on the Foundation of the External Financial Statements.	268
Seeking out problems and opportunities	269
Avoiding information overload	269
Distinguishing Internal and External Financial Statements.	270
Format	270
Detail	271
Confidentiality	271

Timeliness	271
Completeness	272
Gathering Financial Condition Information	272
Cash	275
Accounts receivable	276
Inventory	276
Fixed assets less accumulated depreciation	277
Intangible assets	278
Accounts payable	279
Accrued expenses payable	280
Income tax payable	281
Interest-bearing debt	281
Owners' equity	282
Culling Profit Information	283
Presenting an income statement for managers	283
Calculating cash flow on the back of an envelope	284
Managing operating cash flows	286
Scrutinizing sales revenue and expenses	286
Avoiding Rookie Mistakes	287
CHAPTER 14: Applying Wall Street's Tricks and Treats to Engineer Financial Results	289
Knowing What Financial Engineering Is Not	290
Defining What Financial Engineering Is	291
Identifying Commonly Used "Tricks of the Trade"	293
Using tricks that fit within GAAP but need more digging	293
Understanding commonly used tricks outside the realm of GAAP	295
Manufacturing Imaginary Profits (and, Yes, Losses)	297
Reviewing examples of "manufacturing" profits	297
Keeping critical points in mind	299
Looking Out for Particular Trends and Terminology	299
PART 4: LEVERAGING ACCOUNTING IN MANAGING A BUSINESS	301
CHAPTER 15: Analyzing Profit	303
Helping Managers: The Fourth Pillar of Accounting	304
Branching out in the field of management accounting	304
Following the organizational structure	305
Centering on profit centers	306
Internal Profit Reporting	307
Designing internal profit (P&L) reports	307
Reporting operating expenses	308
Looking at Strategic Profit Analysis	309
Presenting a profit analysis template	310
Separating variable and fixed expenses	311
Stopping at operating earnings	313
Focusing on margin — the catalyst of profit	314
Using the template to explain profit	315
Taking a Closer Look at the Lines in the Profit Template	316
Sales revenue	316
Cost of goods sold	317

Variable operating expenses	318
Fixed operating expenses.	318
Using the Profit Template for Decision-Making Analysis.	320
Tucking Away Some Valuable Lessons.	321
Recognize the leverage effect caused by fixed operating expenses	321
Don't underestimate the impact of small changes in sales price.	322
Know your options for improving profit.	323
CHAPTER 16: Accounting for Costs	325
Looking Down the Road to the Destination of Costs	326
Are Costs Really That Important?	327
Becoming More Familiar with Costs.	330
Direct versus indirect costs	330
Fixed versus variable costs.	331
Relevant versus irrelevant costs	332
Actual, projected, and standard costs	333
Product versus period costs.	334
Assembling the Product Cost of Manufacturers.	334
Minding manufacturing costs	335
Classifying costs properly.	337
Calculating product cost.	339
Examining fixed manufacturing costs and production capacity.	340
Puffing Profit by Excessive Production	343
Shifting fixed manufacturing costs to the future	343
Cranking up production output	345
Being careful when production output is out of kilter with sales volume	346
CHAPTER 17: Preparing Best-in-Class Forecasts, Projections, and Budgets.	347
Focusing on Key Forecasting Concepts	348
Putting Forecasting in Its Place	349
Planning reasons for forecasting.	350
Control reasons for preparing forecasts	351
Exploring Forecasting	352
The living and breathing business forecast.	353
Projections as financial models.	356
Increasing the Power of Your Forecasts.	357
The SWOT	358
Top down or bottom up	358
What if?	360
Rolling forecasts.	361
Seeing a Financial Forecast in Action	362
The income statement	362
The balance sheet	364
The statement of cash flows	366
Rehashing the Value of Forecasts.	367
CHAPTER 18: Capitalizing a Business: How, When, Why, and What	369
Identifying the Elements of a Business Plan	370
Capturing the most critical material	371
Providing a few examples.	372

Valuing Businesses: A Crash Course in the Basics	373
Why businesses are valued	373
How businesses are valued	375
Surveying Commonly Used Business Valuation Techniques	377
Cash flow multiple method	378
Price earnings multiple method	379
Summarizing the Two Basic Types of Available Capital	379
Realizing when to raise equity	380
Knowing when debt is the best source of capital	381
Taking a Deeper Dive into Raising Debt Capital	383
Maturity and security	383
Debt sources (loans)	383
Debt underwriting and costs	384
Debt structure	384
Debt covenants	385
Digging Further into the World of Equity Capital	386
Disguising equity as debt	388
Structuring equity with preferences	390
Reaching the end of the line with equity capital	393
Raising Capital: Tips, Tidbits, and Traps	394
PART 5: THE PART OF TENS	397
CHAPTER 19: Ten Tips for Managers	399
Reach Breakeven and Then Rake in Profit	400
Set Sales Prices Right	401
Don't Confuse Profit and Cash Flow	401
Call the Shots on Accounting Policies	402
Prepare Accurate Forecasts and Projections	403
Demand the Accounting Information You Want	404
Tap into Your CPA's Expertise	405
Critically Review Your Controls over Employee Dishonesty and Fraud	406
Lend a Hand in Preparing Your Financial Reports	406
Speak about Your Financial Statements as a Pro	407
CHAPTER 20: Ten Tips for Reading a Financial Report	409
Get in the Right Frame of Mind	410
Decide What to Read	410
Improve Your Accounting Savvy	411
Judge Profit Performance	412
Test Earnings Per Share (EPS) against Change in Bottom Line	413
Tackle Unusual Gains and Losses	414
Check Cash Flow from Profit	415
Look for Signs of Financial Distress	416
Recognize the Possibility of Restatement and Fraud	417
Remember the Limits of Financial Reports	417
INDEX	419
